

Mechanical Technician

Defense contractor involved with product development and manufacturing of various systems for military aerospace and vehicles in the Los Angeles International Airport area is searching for an experienced Mechanical Technician. With a 50+ year foundation, The Marvin Group supports all branches of the Department of Defense and allies around the globe on an array of programs and platforms. We support many military prime contractors including Lockheed Martin, Northrop Grumman and Raytheon.

SCOPE

Responsible for installation, repair, diagnostics and test of military automotive Environmental Control Systems and Auxiliary Power Units, as a member of our Product Development team.

RESPONSIBILITIES

- Install and test automotive air conditioning systems
- Mechanical assembly, integration and testing of Auxiliary Power Units
- Trouble-shoot air conditioning systems & diesel engines and generators for malfunctions and diagnose problems
- Perform verification and acceptance testing on development and production assemblies

SKILLS / REQUIREMENTS

- 5 years of experience working in machine shops or assembly shops. Preferably with a Defense contractor
- Working knowledge of engines, generators and related components
- Must be able to read and understand drawings and specifications
- Self-motivated and can work with little supervision
- Strong analytical and problem solving skills
- Knowledge of electrical and hydraulic a plus
- Basic computer skills
- Good communication skills
- Strong work ethic and team player
- Must be able to speak/read/write English
- Must be able to lift up to 35 lbs

This position must meet export control compliance requirements. All applicants must be "U.S. persons" within the meaning of ITAR, as defined: a U.S. Citizen, a lawful permanent resident, political asylee, or refugee.
