

SpaceX was founded under the belief that a future where humanity is out exploring the stars is fundamentally more exciting than one where we are not. Today SpaceX is actively developing the technologies to make this possible, with the ultimate goal of enabling human life on Mars.

NDE Level II Technician Position

SpaceX sits within the quality control network supporting production as part of the NDE organization within Materials Engineering department. The NDE function is organized within focused production area cells alongside the production activities utilizing multiple and varied inspection methods to efficiently provide quality control and protect product reliability.

SpaceX is currently looking to hire the following methods:

- PT – Liquid Penetrant Inspection
- RT – Radiography Inspection (X-Ray)
- CR – Computed Radiography
- DR – Digital Radiography
- ET – Eddy Current
- UT – Ultrasonics (Metals)
- UT - Ultrasonics Composites
- UT – Ultrasonics Immersion
- PAUT (Phased Array Ultrasonic Testing)
